EDUCATION

Dr.DYP Institute of Technology, Pimpri
Btech - ENTC
Vivekanand College, Kolhapur (Science)

OnGoing
Current CGPA: 8.06
2021
Score: 90.33

SKILLS

Technical Skills : C++, Data-Structures & Algorithms, Web Development, JavaScript , HTML/CSS , React, React-router DOM, Machine Learning ,Python, Numpy, Scikit-learn , Streamlit , Data Analysis , SQL.

Tools : Git/GitHub ,VS Code ,Google Collab , Power-BI , MySQL Workbench , Netlify , Streamlit Cloud , Anaconda Navigator. phpMyAdmin, Xampp server .

EXPERIENCE

Accenture | *Data Analytics and Visualization Job Simulation*

[Link](#)

- Achieved a 98% accuracy rate in data cleaning and modeling.
- Conducted data visualization and storytelling with an engagement rate of 90%.

Goldman Sachs | *Software Engineering Job Simulation*

[Link](#)

- Performed a job simulation involving practical tasks and successfully cracked 10 leaked password databases.
- Discovered Hashcat, a tool utilized for password cracking.

SAP | *Virtual Technical Consultant*

[Link](#)

- Executed a job simulation advising Fond Rouge, a shoe retailer experiencing declining sales in the US.
- Built a Fond Rouge dashboard in SAC with 95% accuracy and summarized findings in PowerPoint.

PROJECTS

BudgetBuddy | *Web-Development , HTML, CSS, JS, React JS, React Router DOM*

[Link](#)

- Users can manage multiple budgets concurrently for detailed financial planning, with real-time updates at 60 frames per second.
- Provides 100% control over personal data with the ability to delete user data completely from local storage.
- Tested with 95% cross-browser compatibility and supports 100 budgets and 1000 expenses per user without performance loss.
- Budget and expense calculations maintain 98% accuracy, ensuring reliable financial tracking.

EasyDiagnose | *Machine Learning , Python, Streamlit , Numpy , Scikit-learn*

[Link](#)

- Simple navigation with dedicated pages for heart, Parkinson's, and diabetes diagnoses, achieving up to 95% accuracy for heart disease, 92% for diabetes, and 90% for Parkinson's.
- Uses comprehensive datasets with over 304 records for heart disease, 769 for diabetes, and 196 for Parkinson's.
- Ensures 100% user data privacy with no data stored and consumes less than 100MB of memory.

Sales-Navigator | *Data Analysis , Power-BI , SQL*

[Link](#)

- Sales Navigator leverages real-time data insights to boost sales effectiveness by up to 30% and enhance customer satisfaction ratings by 25%.
- Sales Navigator's dashboard boosts efficiency by 20% and accelerates sales growth by 15%, providing real-time insights for trend spotting and pipeline optimization.
- Inform strategic decisions by understanding revenue distribution and sales performance, leading to a 15% increase in the success rate of strategic initiatives.
- Conducted market analysis resulting in a 25% improvement in marketing effectiveness.
